### EXPERIENCE

Shopping-Motorbike-TypeScript 2023

<https://github.com/ArashRahimipour/Shopping-Motorbike-TypeScript>

**Fully responsive shopping website developed with TypeScript and Bootstrap.**

Development of Tourism website with Tailwind (Front-End) 2023

<https://github.com/ArashRahimipour/Tourism-web-Tailwind>

<https://tourism-web-tailwind.vercel.app/>

**This project was developed for one of my friends for his business. It was designed with React and Tailwind. Tailwind saved my time and easy to develop a responsive website very fast and professionally.**

Developing full stack project with MERN (MongoDB, Express, React, and Node.js) February to March 2023

<https://github.com/ArashRahimipour/Mern>

**This full stack project is designed based on MERN stack, which is used MongoDB for database, Express, React and Node.js for backend side and creating API.**

Development of a website with Material UI October 2022

Developing a social app by using material ui component fully responsive.

<https://github.com/ArashRahimipour/Material-Ui-App>
